NEW YORK, Dec. 11.—The mysterious disappearance of Jose Mando Ubert Laverg, with nearly \$70,000 in cash belonging to his wife in his possession, is -case was reported by the pretty wife of the missing Spaniard. The lady told the lawyer that she and her husband came to New York from Louisville, Ky., last Saturday. She said that Watkins, of Maplewood Manor, Ky., and that her father was the well-known breeder of horses of that name. He died a year ago leaving her \$70,000. Shortly after his death she went to Louisville and stopped at the home of a friend, Miss Lulu de Montano, of No. 417 Walnut street. There she met Lavero, who said his father was a wealthy nobleman of Spain. The couple fell in love and were married on October 14 dast, after a six weeks' engagement, by Rev. Dr. Cockerill. They decided to come to New York, and Mrs. Lavero intrusted to hor husband her legacy of \$70.600. They were accompanied to this

city by Miss de Montano. Soon after their arrival Lavero received a cable from his father calling him back to Spain. He told his wife that he had better go alone, as his fathe did not know he was married. She consented, and he left, taking all but \$6,000. She added that shortly after Mr. Lavero departed, Miss de Mantano disappeared, leaving a note that she had gone away with the man she loved. Mrs. Lavero has endeavored to learn when her husband sailed, but without success, she says, and, fearing something might be wrong, she appealed to the lawyer, who advised her to notify the police.

Terrible Death of Mr. and Mrs. T. D. Todd Minneapolis, Minn.-Run Down by a Train and Ground to Pieces, and Their Remains Scattered Along the Track.

MINNEAPOLIS, Minn., Dec. 11.-T. D. Todd and wife, of Sioux City, and their daughter, wife of Master Mechan.c Slayton of the Kansas City road, were run down and instantly killed by a St. Paul & Omaha passenger train at the State University station. They were in the act of boarding a Great Northern train, when they were run down by the Omaha train coming in on an adjoining track at a terrific speed. Mr. and Mrs. Todd were ground to pieces under the engine, their bodies being mutilated almost beyond recognition. Mrs. Slayton was caught by the cow-catcher and hurled a distance of company. He ceased to be, at his own nearly twenty feet into the air, her desire, about five years ago for the exbody falling against a passenger coach of the Great Northern train. The remains of the victims were scattered along the track for a distance of nearly one hundred feet, and it was some time after they were collected that the identification could be established.

The bodies were carried into the station and the coroner notified. Mrs. Slayton left a little girl at home who told those that called that her mamma had gone to St. Paul. The engineer of the Omaha train said he applied the air-brakes, as soon as he saw the Short-Line train at the depot. He had a heavy train and the brakes did not answer promptly. Mr. Todd was a prominent contractor of Sioux City.

The Sentiments of the Guild Hall Meeting in London in Regard to the Treatment of the Jews in Russia to be Conveyed

LONDON, Dec. 11 .- The Lord Mayor, in taking the chair at the Guild Hall meeting, called to protest against the ill-treatment of the Jews in Russia, said he hoped nothing hostile to the Czar would be said. The hopes of the Russian Jews were fixed upon that ruler, ful it is for me to think that who by a stroke of the pen could annul the laws which oppressed them. The Archbishop of Canterbury, Cardinal Manning, the Duke of Argyll, and other eminent personages unable to attend, sent messages of sympathy. The gathering was a most distinguished one. The Duke of Westminster moved a resolution that the suffering of the Jews of Russia from exceptional edicts and disabilities was deplored by all lovers of humanity, and that the principle of religious liberty ought to be recognized everywhere as a natural human right. An Effort to Subvert the Will of the People.

The force bill is an attempt to govern the South from the North. It is advocated by men who do not recognize the equality of American States and who believe that States which do not vote as they command should be made to do so.

It is noteworthy also that the force cill is an attempt to govern Northern Democratic communities from Johnny Davenport's offices in New York and Washington. When the members of the Farmers' Alliance, assembled in National convention, denounced the force bill, these same Republican leaders declared: "Ono! That shows that they have been Democrats all along, and constitute really an adjunct to the Democratic party. Our duty is plain. It is evident that not only the Democratic party, but the whole Farmers' Alliance movement is opposed to our policy, leaving us in a hopeless minority. It will be time enough for that when it sees how much or how little it can do through one or the other of the existing parties. We have already pointed out on frequent occasions that its demands are almost without exception the demands of the Democratic party. Keeping its organization and being prepared at any time to throw its whole weight into politics in the cause of the reform it demands, it will strengthen itself and at the same time add new force to the forces striving for reform. If, however, it decides on a third party movement, the Democrats have nothing to fear from it, for its objects are Democratic, and in Democratic States it would direct its force chiefly against the Republican National administration. In several Democratic States it is already in control of the Democratic organization; in none is the Democratic organization hostile to it, while in every Republican State the Republic-So, with the third party movement or without it, it can not fail to advance the cause of good government.-St.

Not to multiply authorities, it will be sufficient to quote John Stuart Mill. He says (section 2, chapter 3, book

5, "Principles of Political Economy"): A tax on rent falls wholly on the landlord. There are no means by which he can shift the burden upon any one else. It does not affect the value or price of agricultural produce, for this is determost unfavorable circumstances, and in those circumstances, as we have so often demonstrated, no rent is paid. A tax on rent, therefore, has no effect other than its obvious one. It merely takes so much from the landlord and transfers

it to the State. The reason of this will be clear to every one who has grasped the accepted theory of rent-that theory to which and which, as John Stuart Mill says, has but to be understood to be proved. And it will be clear to every one who will consider a moment, even if he has never before thought of the cause and sents a return to ownership over and paid upon the poorest land in use above the return which is sufficient to permission to use. To take, in taxation, part or the whole of this premium, in no way affects the incentive to use or the return to use; in no way, diminishes the amount of land there is to use, or makes it more difficult to obtain it for use. Thus there is Whatever the State may demand of this premium simply diminishes the net amount which ownership can get for its use, or the price which it can demand as purchase money, which is, of course, rent, or the expectation of rent, capital-

Thus it is impossible for land owners to throw such taxation on land users by raising rents. Other things being unaltered, rents would be no higher than before, while the selling price of land, which is determined by net rent, would be much diminished. Whoever purchased land outright would have to pay less to the seller, because he would therefore be called on to pay more to the State. But, while the taxation of land values

Its operation would be anologous to that of a tax on a producible commodity, and it would in effect reduce the supply of land that could be used, since no land could then be used that would not yield sufficient to pay the tax. But a tax on economic rent or land values would not fall on all land; it would fall only on valuable land, and on that in proportion to its value. It would thus not have to be (which always determines rent), and so would not become a condition of use, or restrict the amount of land that could be profitably used, and so the land owners on whom it fell could not shift it on the users of land. This distinction, as to nature and effects, between a tax on land and a tax on land values, it is nec essary to bear in mind.

It is a value which arises not from the exertion of any particular individual, but from the growth and progress of the community. A tax on land values, therefore, never lessens the reward of exertion or accumulation. It simply takes for the whole community that value which the whole community While it is not true that a tax on land

Taxes That Can Kill Dogs Can Kill Men. [Pa Chase in St Louis Farmer and Breeder. Farmers are "taxed to death." They are often taxed out, of their occupation.

In old times, in Vermont, the dogs were killing off our sheep. So we got the Legislature to put a heavy tax on dogs. That tax killed off the dogs and let the sheep live.

It looks as though Congress and our State Legislature were in a conspinacy the monopolists. In 1857 I left Vermont and moved to

The frue hero will endeavor to make the most of life, and to this end the first consideration is a robust constitution. Like a good general on the battle plain, who, when expecting an attack from the enemy, will entrench himself in fortifications, so he, when disease is in the atmosphere or hovering in ambush smid climatic changes, will fortify his system against every encroach-ment the grim monster may seek to make. Many a grand life has ended for want of timely precaution in the hour of need. When fever and influenza are abroad, when the damp chilly days touch the marrow bones, when effluria and malaria walk hand in hand, then it is that the system should be fortified by a use of that superb strengthening tonic atterative of Dr. John Bull's Sarsaparilla, which keeps the blood pure and the functions regulated, so that disease can not enter the citadel of life.
